

Environmental Sustainability and Climate Responsibility Policy

Queensway Navigation Co. Ltd. is committed to conducting its operations with the highest regard for the environment and to actively supporting the global effort to address climate change. The Company recognizes that environmental stewardship is a shared responsibility and a critical part of its long-term operational, regulatory, and social obligations.

This policy applies to all shipboard and shore-based operations and is implemented in alignment with applicable environmental laws and conventions, including MARPOL, the IMO Initial GHG Strategy, EU and national legislation, and the United Nations Sustainable Development Goals (SDGs).

To fulfil its commitment to environmental sustainability and climate responsibility, the Company shall:

- Promote a culture of environmental awareness and accountability at all organizational levels
- Minimize environmental impact by reducing waste, emissions, discharges, and marine pollution through best operational practices
- Support global decarbonization efforts by managing energy use, monitoring emissions, and reducing the Company's carbon footprint
- Adopt low-carbon and energy-efficient technologies and evaluate options for alternative fuels where operationally and economically feasible
- Incorporate environmental performance considerations into procurement, vessel upgrades, and fleet development strategies
- Ensure full compliance with MARPOL and other applicable environmental regulations, including reporting obligations under IMO DCS and EU MRV
- Set, monitor, and periodically review environmental objectives and targets, including GHG emissions, waste reduction, and energy efficiency performance
- Engage with employees, clients, and stakeholders to promote sustainable shipping practices and environmental responsibility
- Contribute to broader environmental and community initiatives that align with the Company's values and mission

Environmental sustainability is a key pillar of the Company's business strategy and a reflection of its long-standing commitment to responsible shipping and continuous improvement.
